This versatile bath salt is not only easily applicable to a variety of uses, it is also historically famous for its skin soothing and softening properties. The salt harvested from the mineral-rich waters of the Dead Sea is naturally infused with an extremely high concentration of necessary compounds which assist in cleansing, detoxifying, and restoring a healthy, hydrated balance to the skin and muscles.\*

Healthy, moist skin starts with water and electrolytes. Among the minerals in the Dead Sea are essential electrolytes: magnesium, sodium, calcium, and potassium, which hydrate the skin and lower inflammation. A soak in Bokek® Dead Sea salt can calm and alleviate dry, thin or irritated skin from psoriasis, eczema, or everyday stressors, with the added benefits of relaxation, improved mood and concentration while unwinding tense, tight muscles.\*

Additionally, Bokek Dead Sea salts contain high levels of zinc and sulfur. These minerals, found in most effective acne-banishing beauty products, are known for their antifungal and antibacterial properties that decongest pores and calm breakouts. The natural properties need no synthetic additives or ingredients, and are beneficial for all skin types and concerns.\*

BRETON® SEL GRIS BULK

# FRENCH SEA SALT

---

Breton® french grey salt is hand harvested using the traditional method of channeling clean sea water into clay-lined evaporation ponds, where salt crystals absorb trace minerals from the clay as they form. This natural process results in a distinctive grey color, unique to sel gris. The process of hand collecting of these delicate salt grains with wooden tools is considered a form of art in France, as it produces a beautiful, soft sea salt crystal with higher moisture content.

Aptly called “the caviar of salt,” all-natural Breton is coveted for its texture, color, and high mineral content. Perfected using SaltWorks® proprietary quality techniques, we ensure that Breton is the highest quality French grey bath salt available. The best of the best, and an ideal choice for discerning manufacturers and commercial spas looking for a high-end bulk sea salt for their all-natural bath products or spa treatments.
